PROFESSIONAL SUMMARY

Motivated Computer Science major with a keen eye for detail, strong problem-solving skills, and a passion for full-stack development. Skilled in web and software development using technologies such as HTML, CSS, JavaScript, Python, and SQL. Experienced in both front-end and back-end development, with a focus on building user-friendly applications and collaborating in team environments.

EDUCATION

Computer Science - Bachelors of Science | 2026

Georgia State University - Atlanta, GA

- GPA: 3.63 | Dean's List
- Relevant Coursework: Web Programming, Design Analysis Algorithms, Data Structures, Discrete Math, System-Level Programming, Software Development-CTW, Operating Systems

WORK EXPERIENCE

App Developer Intern | February 2025 to May 2025

Free World Empire - Remote, Atlanta, GA

- Collaborated with a team to design and build new features for a social app, focusing on creating a smoother and more engaging user experience.
- Performed thorough testing and debugging to identify performance issues, implementing fixes that improved app responsiveness and reliability.
- Consistently presented work to the team, sharing updates and walkthroughs to get feedback on design, functionality, and overall user flow.
- Incorporated team and user feedback to refine UI components and enhance overall usability, contributing to higher user engagement metrics.

DLS Front Desk Student Assistant | June 2024 - Present

Georgia State University | Atlanta, GA

- Managed daily office operations, including mail distribution, supply inventory, copier maintenance, and workspace organization to maintain a professional environment.
- Monitored and restocked office and printing supplies, maintained equipment functionality, and ensured readiness for faculty and staff use.
- Supported communication flow by handling incoming/outgoing mail, coordinating interoffice deliveries, and ensuring a clean, efficient front desk area.

PROJECT EXPERIENCE

Personal Portfolio Website | HTML / CSS - October 2025

- Designed a responsive personal portfolio website with sections for Home, About Me, Education, Experience, Resumé, Projects, and Contact.
- Implemented clean, semantic HTML and custom CSS styling to create a professional layout that highlights skills and project work.
- Optimized for accessibility and performance, ensuring smooth navigation across devices.

Chess Game | HTML / CSS / JavaScript - August 2025

- Developed an interactive chess web app with full move validation, check/checkmate detection, and turn-based state management.
- Built a responsive, accessible UI using CSS Grid and Flexbox, ensuring seamless gameplay across devices.

Bank Account Management | C - January 2025

- Devised a command-line bank account system with core transactions, error handling, input validation, and security features.
